)

CRIMINAL NO. 2:18cr119

STIPULATION #1

Both the Defendant and the United States stipulate and agree that the ski mask (Ex. 7) was sealed in a bag after it was collected and was then transported to the Eastern Laboratory for a DNA analysis. The ski mask remained in the sealed bag without any tampering or alterations until it was given to the forensic scientist who conducted the DNA analysis. Therefore, both parties agree that the United States does not have to call any witnesses whose sole testimony is to establish chain of custody for the ski mask.
